### NOON REPORTS.

Billing Republican Stock.

CHICAGO, July 23.—The members of the western division of the National Republican Committee met pursuant to adjournment in New York, at the Grand Pacific Hotel yesterday. Senator Logan presiding. John C. New, of Indiana; Chauncey J. Filley, of Missouri; Elihu Enos, of Wisconsin, and Wm. C. Cooper, of Ohio, were present. Mr. Filley was elected vice-chairman, as Logan would be absent much of the time this fall on campaign matters in Ohio, Indiana and Illinois, and in the East. It was voted that the committee should select an auxiliary committee from the Republicans of Chicago to aid in the coming campaign. It was also decided that an auxiliary committee from each of the States embraced in this jurisdiction be appointed. Much other campaign business was transacted, and after exchanging hopeful views on the situation the committee adjourned.

Racing.

SARATOGA, July 23.—The weather is clear and warm. The track is only in fair condition after last night's storm. The first race for maidens two-year-olds, five furlongs, Thora won by one length; Bonnie Lizzie, second; Midgely, third. Time, 1:04. In the second race, mile-and-a-half, Colonel Sprague won by two lengths. Clarion second, Turenne third, Gold Bug, the favorite, fourth—time, 2:42. In the third race, one mile, the brown colt Late the King won by two lengths, Quite second, Sioux third—time, 1:46. The fourth race, steeple chase, purse \$500, handicap steeple chase for all ages, of which \$100 to second, and \$50 to third, about 13 miles. Pools sold, Waller, \$400; Frank Short, \$145; Capt. Franklin, \$50. Waller won by ten lengths; Capt. Franklin, second; Frank Short, about a quarter of a mile off—time, 3:10.

Burning and Shooting.

GALVESTON, July 23.—A news special from Troupe says fire has destroyed the whole north side of the town. Loss, \$25,000; insurance \$80,000. The fire was of an incendiary origin. The post-office and supplies were burned.

A special from Waco says that in a difficulty at Tezer's Springs yesterday, John C. Vale shot and instantly killed R. R. Parmer.

A special from Jefferson says the Greenback Convention at Sulphur Springs yesterday nominated H. F. O'Neal, of Cass county, for Congress.

Which he was Seized Wrongful.

TORONTO, ONT., July 23.—Geo. Bennett alias Dickson, convicted of the murder of Hon. Geo. Brown, was executed at the jail yard in this city at eight o'clock this morning. He made a brief speech, denying any intention of harming Mr. Brown when he visited his office. Bennett's demeanor throughout the trying ordeal, was remarkably stolid and he spoke without tremor. His death appeared to have resulted from strangulation, spasmodic contractions of the body, continuing for nearly ten minutes after the drop fell.

Earthquake.

MADRID, July 23.—An official dispatch dated Manila, July 21st, says that there was another shock by earthquake at that place, which lasted 55 seconds. Not a single public edifice was spared. The convent of Guadalupe, which had lasted for three centuries, was destroyed. Nobody was killed. The inhabitants are encamped outside of town.

Suicide.

NEW YORK, July 23.—An American lady named Mrs. Wetmore has committed suicide in Paris because the Marquis of Anglesey married Mrs. Wodehouse instead of herself.

### MIDNIGHT REPORTS.

The Tammany Democrats.

SARATOGA, N. Y., July 23.—The State Committee of Tammany Democrats met here this morning, and was called to order by Jas. H. Colby, Chairman. Every member is either present or represented by substitutes.

Secretary Skeels said he had resignations from all the candidates for electors who were nominated at Shakespeare Hall.

Mr. Page, of Oswego, moved their acceptance.

Mr. Cowen, of Saratoga, thought it better to appoint a committee of five to confer with other organizations before accepting these resignations.

No action being taken on this subject motion, John Kelly, Chairman, appointed five members to act with the chairman and secretary of the committee to prepare an address. The committee consists of John Kelly, William W. Wright, E. S. Jenny, Alonzo S. Page and F. L. Westbrook.

The committee then took recess until 4 o'clock.

Steamboat Accident.

DETROIT, July 23.—A terrible accident occurred about 10 o'clock last night on the Detroit River, some nine miles below this city. The excursion steamer Garland with 1,200 persons on board, under the auspices of the Detroit Moulders Union, while going down the river collided with the steam yacht Mamie, coming up and hitting her in two, so that she almost instantly sank. The latter had on board twenty-four persons, consisting mainly of Father Blymbergh, pastor of Trinity Roman Catholic Church of this city, and number of acolytes and boys officiating in various capacities in the service of the

NO. 115.

church. They had been on their annual excursion to Monroe and were returning home. The night was bright with moonlight and there would seem to have been no reason, save that of criminal neglect, why the accident should have occurred.

The Fasting Fool in Luck.

NEW YORK, July 23.—Dr. Tanner at noon commenced his 26th day of his fast in an improved condition and good spirits. He says water distresses his stomach, and hereafter will drink less, although he has taken a pint since midnight. He expresses indignation at the reports of his condition failing, and declares he was never more confident of his success than now.

A New York manager, this morning, offered him \$600 per week to complete his fast at his theatre.

The National Democracy.

NEW YORK, July 23.—The Democratic National Executive Committee went into session at noon to-day. The Committee was in session until about 2 o'clock this afternoon. After its adjournment, Senator Barnum the Chairman stated that no business of any public importance had been transacted. The Committee had only informally discussed matters relating to the active carrying on of the campaign.

Missouri Democrats.

ST. LOUIS, July 23.—The Democratic State Convention adjourned this morning after being in session all night. The State ticket was completed as follows: Attorney General, D. H. McIntyre; Register of Lands, Robert A. McCullough; Railroad Commissioner, George C. Pratt; Presidential Electors at Large, Colonel J. L. Morrison and N. Phillips.

Yellow Fever.

WASHINGTON, July 23.—Advices received by the National Board of Health show that for the week ending July 10th there were eight cases of yellow fever and five deaths at Nassau, N. P.

Gov. Brown Redivivus.

ST. LOUIS, July 23.—Ex-Governor B. Gratz Brown has announced himself as a candidate before the next legislature for the United States Senate.

## THE DAILY NEWS.

By P. M. HALE, PRINTER TO THE STATE.  
L. L. POLK, CORRESPONDING EDITOR.  
RALEIGH, N. C.

SATURDAY ..... JULY 24, 1880.

### THE STATE CANVASS.

Gov. JARVIS, Democratic candidate for Governor, will address the people as follows:

At Clinton, Sampson County, Saturday, July 31st.

At Kenansville, Duplin County, Tuesday, August 3d.

At Jacksonville, Onslow County, Wednesday, August 4th.

At Trenton, Jones County, Thursday, August 5th.

At Kinston, Lenoir County, Saturday, August 7th.

Some other of the State Canvassers will be with him at all of these appointments.

### NEGLECTED RESOURCES.

We have known many Legislatures in North Carolina. We have never known a better than the last. It was composed of good material, and it did good work. Yet it adjourned in 1879 without doing a very necessary work, and it neglected to do that work because additional taxation was involved, and constituents had not indicated as clearly as they might their willingness to an increase of taxation for such a purpose. It is not therefore absolutely true that "if the right kind of men are elected the right kind of legislation will follow" on all subjects of legislation. That is to say, what some of us consider not only the right but the most essential kind of legislation. If we "deal damnation round the land" in denouncing as waste what other very sensible people may have considered frugal expenditure, we must not deal out damnation just as freely if those to whom the taxing power is entrusted tighten the purse-strings when they come to deal with our own "petticoat vanity." It is not every man's vocation to sacrifice himself on the altar of the public good. Now we have no doubt that the people of North Carolina will pay with great cheerfulness the taxes necessary to the fulfilment of the Constitutional requirements in regard to common schools. What we wish to do is to induce them to signify as much to the men they select as candidates for the next Legislature. They can do it very conveniently in their primary meetings and county conventions. If they do it, and elect the right kind of men, the right kind of legislation will certainly follow. The Democratic candidates for State offices are in earnest in this matter, and whatever help a newspaper can give them in the great work, this newspaper will give. What we may gain by schools, what we have lost by neglect of schools, mentally, morally, materially, will be brought to public attention, hereafter as heretofore, until the needed reform is accomplished. To-day attention is asked to some of our neglected or misused or non-used resources.

No man who studies the physical geography of North Carolina can resist the conviction that she was designed to be the seat of great and varied industries. Situated on the margin of the southern temperate zone, it presents conditions alike adapted for healthy, protracted labor, and for economy of the means of animal life. From its geological formation, its soil is such as to include almost every variety and grade; while, by reason of the different elevations of its surface, it is adapted to the growth of every grain, and (one or two tropical fruits excepted) to the growth of every fruit that can be found from the Gulf of Mexico to the Canada line. Its forests include, in abundance practically unlimited, all the timbers used in building, in the construction of machines and implements, and in the making of furniture of a costly kind. It may be mentioned, that of the twenty-two species of oak found in the United States, nineteen are found in North Carolina; that of the twenty kinds of timber admitted to the New York ship-yards, as suitable for building vessels, nearly every one is found in this State in abundance. Of the mineralogical species there is a larger number found in this State than in any other of the United States. Its wealth in useful ores is almost without limit; in the most precious of metals it abounds; and many precious stones are found here. Its rivers flowing from its lofty mountains to the sea, supply a motive power for machinery which is inexhaustible. Of the variety of plants which characterize the flora of the State, many of which are used in medicine, it is sufficient to mention that Dr. CURTIS's catalogue contains nearly 2,500 species.

In this brief and necessarily imperfect abstract of the resources of the State, every item is taken from our Geological reports. It is evident that here nature has lavished her most valuable treasures with open hand. Here every external condition for the highest perfection in agriculture, the useful arts, and the arts that minister to taste and luxury. The State ought to-day to rival in all the appliances of high civilization any country on the globe. In many Western States which possessed not a tithe of the natural re-

sources of North Carolina, we have seen within a few years the wilderness converted into smiling fields, and stately cities arise amidst dense population plying every branch of industry in the field, the factory and the workshop. Why are so many of the elements of wealth here permitted to lie unimproved, while so many others have been long and systematically abused? Why do we not witness here something of that exuberant energy of movement of which we have just glanced elsewhere?

The marvels which there meet the eye are the effects of educated mind; while the condition of things here is due to the neglect and waste of intellect which has gone on for so many generations. It is clear that we have lost innumerable, and in every way, our own sapiness. Let us take measures to retrieve the past. Let us redeem our State from the reproach under which she has so long suffered, and place her side by side with the foremost States in intellectual progress. Let us strive to fill our University and other institutions of learning with youth intent upon knowledge; to establish in every district one or more schools where the mind of every child in the State may be developed into life and activity, stored with useful information, and fortified with sound religious principles; to lay open before completion, as defects are discovered, that can be remedied better now than later. Forty feet are being added to the kitchen which, when completed, will be in keeping with the dining room. A children's dining room is also being built, and it is proposed to put a platform from the hotel to the water, where mothers can sit and see their little ones bathe, as at the old Atlantic.

This is certainly a paradise for little folks, who are better cared for here than at any other summer resort I ever visited. Most of the mothers sensibly dress their darlings, in the mornings, as at home, and they run round barefooted or paddle like ducks in the incoming or outgoing tide, to come out fresh and clean in the afternoons. They are not excluded from the ball room, as at some places, and generally have a jolly time. I understand

#### COTTAGES ARE TO BE BUILT

for families on the beach, and if the pleasure seekers and health seekers will only have patience, they will, before long, have a most delightful resort here.

I have spoken frankly of the defects because they seemed to be consequent only on the unfinished state of the building, and were not permanent. That there has been great dissatisfaction expressed it is idle to deny, but it seems to me so unreasonable to judge either the building or Mr. Freeman's management, at present, and at the same time point out how complaints might be easily satisfied. Mr. Freeman certainly desires to please, but, as said Aunt Abby House, "she can't be President and all the Secretaries too," and he needs more assistance than he has at present to manage so large an establishment. This he is gradually getting, and if North Carolinians will only wait I think they will find out we can get along without

**THE HELP OF A VIRGINIAN,**  
and don't need to *sub-lett* our hotel as some propose.

The fishing is improving daily, and parties of gentlemen who go out return laden with spoil. There was a pleasant party to the Light-House yesterday, and one enterprising young man has pointed out a charming

**"COURTING CORNER"**  
to me, in the cupola at the top of the house; but it strikes me as rather too large for one couple, and not large enough for two, so I hope the proposed outside galleries will not be wanting next year.

I see among the arrivals since my last letter the wife and family of Mr. Talcott, of the Richmond & Danville Railroad, Mr. Eugene Morehead and family, of Durham, Dr. Marshall, of Raleigh, and Mrs. Hanrahan, of Pitt county. Guests will only wait I think they will find out we can get along without

**SECRETARY SHERMAN** says that the chief cause of Southern backwardness is the Democratic party. The South has grown more solidly than the North since it once again passed into Democratic hands four years ago. Its progress has been delayed by reconstruction previous to 1876. Since then another Republican iniquity, the tariff, has delayed the full measure of our prosperity. It has robbed and plundered the weak and the poor to build up the fortunes of the wealthy; it taxes all the States hundreds of millions annually that the manufacturers in New England and Pennsylvania may grow rich. This policy cannot be called enlightened; it cannot be called fair or equal; it is little better than the policy pursued by freebooters two hundred years ago.

**BLACKWOOD'S MAGAZINE** for July has been lately reprinted by the LEONARD SCOTT Publishing Co. Its two serials do not abate in interest, and in the other papers we find sufficient attraction to arrest the attention in this merciless weather, when it is almost a burden to do or even to look at anything. The periodicals reprinted by the LEONARD SCOTT Publishing Co. (41 Barclay Street, N. Y.) are as follows:

*The London Quarterly, Edinburgh, Westminster, and British Quarterly Review*, and *Blackwood's Magazine*. Price, \$4 a year for one, or \$15 for all, postage prepaid by the Publishers.

**THE RADICALS** are praising themselves with great industry for decreasing the public debt and getting the bonds to a slight premium. If it had not been for the convention will thin them out to a stand, on the 31st of July.

Mr. William McLeod has a tobacco patch that sprouted from last year's stumps and is nearly ripe and would have been good had the weather been seasonable.

The oldest woman found by our census men, was a Mrs. Lee, of Avoca township. She was 103 last April.

I don't take any stock in old negroes.

One enumerator found a negro doctor who said he was 100 and his wife 92, and gave in the age of their youngest child at 24. Can the physicians account for the disparity of ages between mother and child?

H.

The highest percentage of municipal growth shown by the census is that of Denver, which has increased during the decade at the rate of 650 per cent. Minneapolis ranks second with a rate of 400 per cent., and Oakland, Cal., third with a rate of 233 per cent. St. Paul and Camden, N. J., share the fourth place with a rate of 107 per cent. Grand Rapids, Mich., is credited with 93 per cent.; St. Joseph, Mo., with 87 per cent.; Omaha, Neb., with 79 per cent., and Atlanta, Ga., with 78 per cent.

The baby star is considered pretty for a young girl now in England. It is done by opening the eyes as wide as possible without raising the brows and slightly turning the corners of the mouth upward. Saying "mouse," five or six times gives the right position to the lips.

### By the Sea.

[Correspondence of THE RALEIGH NEWS.]

MOREHEAD CITY, June 21.

**EDITORIAL NEWS**—Day by day the roses bloom as well as fall, and day by day improvements down and mechanics leave the hotel, which is gradually assuming a more ship shape, and the unreasonable fault-finders are silenced as they see the efforts made to meet the wants of the visitors. There are no workmen now in the house, which is consequently, as the Scotch say,

"BEDDED UP."

and the passages kept clean and free from their debris. The paint pots have disappeared and the plumbers' tools are out of sight, but the work goes bravely on outside, and by the middle of next week the billiard room and ten-pin alley will be completed, and the bar removed from the main building to its proper location. All the faults found by the discontented have been the result of the newness of things, and I think that perhaps after all it was

"NOT A MISTAKE."

to open before completion, as defects are discovered that can be remedied better now than later. Forty feet are being added to the kitchen which, when completed, will be in keeping with the dining room. A children's dining room is also being built, and it is proposed to put a platform from the hotel to the water, where mothers can sit and see their little ones bathe, as at the old Atlantic.

This is certainly a paradise for little folks, who are better cared for here than at any other summer resort I ever visited. Most of the mothers sensibly dress their darlings, in the mornings, as at home, and they run round barefooted or paddle like ducks in the incoming or outgoing tide, to come out fresh and clean in the afternoons. They are not excluded from the ball room, as at some places, and generally have a jolly time. I understand

that the French term *belles-lettres*.

Selections are made from forty English

and American authors, all, not only of the first rank, but representatives of either

epochs in literature, marked phases of style, or distinctive contributions to literary method.

Each author is introduced by an appropriate "characterization" by a distinguished critic. Beginning with Shakespeare, we have first his characterization by Dr. Johnson, next Milton's tribute to him, and then selections from his works. Care has been

taken that, as far as possible, each selection should be a complete piece, and where this is impossible each piece has a certain unity about it so that it can be studied as a whole. From Shakespeare we pass through the great cycle of literature evolution beginning with the romanticism of the sixteenth century, and ending with the scientism of the nineteenth, as embodied in Huxley's "Scientific Spirit in Modern Thought."

George Eliot is the only woman who ranks with the celebrated "forty," and we cannot but think that Professor Swinton has made a mistake in selecting from "Romola," which may be, as he says, the most scholarly of her novels, but is certainly not the most distinctive or the one by which she is best known. *Blackwood*

which may be, as he says, the

## THE DAILY NEWS.

RALEIGH, N. C.

SATURDAY.....JULY 24, 1880.

To Our City Subscribers.

Mr. T. L. BRACHAM has been placed in charge of the subscription list and delivery of the papers in Raleigh, and will attend to can-  
celes and collecting for the same. Every  
subcriber will have the paper delivered before  
6 o'clock each morning.

The Weather To-Day.

WASHINGTON, D. C., July 23.—The indica-  
tions for the South Atlantic States are as fol-  
lows: Partly cloudy weather with occasional  
rain, winds mostly southerly, stationary or  
higher temperature and barometer.

Index to New Advertisements.

Wayne Allcott—Machinery.  
Grand Dress Ball at Sparkling Catawba  
Springs.

CITY AND COUNTY ITEMS:—  
Mr. Sherwood Badger has gone to the  
West.

Governor and Mrs. Jarvis go to Beau-  
fort to-day.

Gen. Cox will speak at O'Neil's in John-  
son county to-day.

R. H. Battle, Esq. and Dr. R. H. Lewis  
for Beaufort yesterday.

The members of the Grocers and Cotton  
Exchange go to Beaufort on an excursion  
to-day.

The Raleigh Gun Club had its weekly  
shoot yesterday afternoon. The medal  
was won by Mr. E. B. Engelhard.

Drummer's licenses were issued yester-  
day to J. A. Hayes & Co. of Philadelphia  
and to Isaac Greenbaum & Sons of Balti-  
more.

The internal revenue receipts at Raleigh  
yesterday amounted to \$5,454.50. Why  
the figures were exactly so we cannot tell,  
but they were so.

"The Long season in May" has come at  
last. There is a saying that this season  
will come, if it has come in August,  
and this year almost verified the saying.

The Connecticut Fire Insurance Com-  
pany, through its general agents, W. L.  
Smith & Co., of Wilmington, has paid the  
annual tax on gross receipts for the  
six months ending June 30. The tax  
amounted to \$39,16.

It is thought best to have no service on Sunday in the Second Presbyterian Church,  
as the paint on the pews may not be per-  
fectly hard and dry. Services may be ex-  
pected Sunday week, of which more par-  
ticular notice will be given.

There will be a grand dress ball at the  
Sparkling Catawba Springs on the 29th.  
Among the Honorary Managers we notice  
the names of Hon. Z. B. Vance and Hon.  
R. E. Armfield. From the advertisement  
in this paper it will be seen that arrangements  
can be made for reduced fare. Read  
the notice and go.

By the new schedule of the Piedmont  
Airline as advertised in THE NEWS, pas-  
sengers can leave Raleigh after business  
hours on one day and take breakfast in  
Richmond or Washington next morning;  
and by keeping straight on can reach New  
York that afternoon. The price of the  
tickets is \$10 to Richmond and return, and  
\$14.50 to Washington and return.

He had just enjoyed a wholesome ab-  
sence and a clean suit of clothes, prepar-  
atory to going to the Sunday school. His  
mother gave him a little bread and molasses,  
and being absent returned in a few  
minutes to find his darling sweet Johnnie  
smeared from his eyes to his feet. "You  
little wretch, what do you mean? Only a  
moment ago I dressed you neatly. What  
am I to do?" Looking and grinning  
through his molasses, Johnnie coolly re-  
plied: "Mudder, you des let me 'lowe;  
I'e runnin' dis machine."

**REDUCED RATES.**—The Raleigh and  
Gaston Railroad Company are selling tick-  
ets to Richmond and Norfolk at \$10 for  
the round trip, good for 30 days. Tickets  
to Washington and return for \$14.50, and  
Baltimore and return for \$15, good until  
the 1st of November, are also for sale by  
the same company.

**RESIGNED.**—Yesterday afternoon Judge  
Buxton sent in his resignation to take  
effect on the 1st day of August. He gave  
as a reason for retaining his present position  
until that date the necessity of wind-  
ing up certain proceedings already com-  
menced before him. Governor Jarvis  
wrote him to say that his resignation had  
been received, accepted and filed.

**BULL-DOG LAW.**—Probably  
Judge Gidger was not aware that in decid-  
ing that a bull-dog was a deadly weapon  
he reversed the decision of Judge Logan.  
A friend told us yesterday that Judge Lo-  
gan some years ago decided at Rutherford  
Court that a bull-dog was not a deadly  
weapon unless one took him by the hind  
legs and tail and walloped another with  
it.

**THAT COMMITTEE.**—The Republic-  
an Executive Committee adjourned yes-  
terday after another hot time. A cam-  
paign committee was appointed consisting  
of T. N. Cooper, chairman, and T. B.  
Koch, J. J. Mott, W. A. Moore, J. H.  
Blum and Lott W. Humphrey. We learn  
that arrangements were made to start a  
campaign paper, which will make its first  
appearance next week and will be issued  
widely during the campaign.

**THE ATLANTIC MONTHLY.**—Founds  
its claims to public support on the literary  
excellence of its contents, and its claim is well  
based. The Stillwater Tragedy from the  
August number and the interest deepens as  
the denouement approaches. Mark Twain  
also contributes to the Atlantic. His story  
in this number has a murder in it, but  
everybody knows how his murder tales  
read. The other contributors to the At-  
lantic are worthy competitors of the two  
named.

**SUPREME COURT.**—Court opened yes-  
terday morning at 10 o'clock. All the  
Justices were present.

The argument in the cases between  
the North Carolina Railroad Company et  
al. and the Carolina Central Railway Com-  
pany et al., commenced on Thursday, was  
resumed and consumed the day.

The court adjourned until 10 o'clock  
this (Saturday) morning, when the con-  
sideration of appeals from the Sixth Judi-  
cial District will be resumed.

**DEATH OF THOMAS C. SMITH.**—Thos. C. Smith died at his residence, near Wake Cross Roads, on Thursday last, of typhoid fever. Mr. Smith was a good man and a useful citizen. He was quiet, peaceful and unassuming, but he never looked upon any man or thing to fear it. He was a man of immense will, and when he made up his mind no power on earth could move him. Many men have been more conspicuous before the public, but few have ever died leaving behind them a more enduring monument of good deeds.

**APPLETON'S JOURNAL.**—We have a very tender feeling for Appleton's Journal, for through its pages the genius of Christian Reid (Miss Fisher) first attained recognition. We judge, too, that the faculty of recognizing and appreciating talent unheralded has not been lost. The list of contributors to the present number contains names new to our ears. The articles, too, are marked with a freshness which indicate 'prentice hands, but they have withal a strength and fervor to which practice could add nothing.

**THE EINFIELD SENTINEL.**—The Index says that the wheat crop of Wilkes is threshing out well, and corn and tobacco are both prospering.

**THE REVIVAL IN THE CROWELL'S X ROADS BAPTIST CHURCH.**—The Welton News says, closed last week. There were 75 baptisms.

**THE ECONOMIST.**—The Economist says that Pasquotank farmers are happy; crops nearly all laid by; the prospect never better; business brightening up.

**THE CHARLOTTE DEMOCRAT.**—The Charlotte Democrat quotes flour at \$3 to 3.25 per sack; Wheat 1 to 1.10;

corn and meat 63 to 65; peats 65; oats 40;

butter 22 to 25; chickens 12½ to 20; eggs 10; whisky 1.25; apple brandy 1.50.

**CARROT CROPS.**—Carrot crops are reported excellently by the Kinston Journal, and the yield is expected to be larger than for years. Lemire's cotton is reported as "extra nice," but the Journal thinks the rains may be making stalk instead of fruitage.

**THE ASHEVILLE CITIZEN.**—The Asheville Citizen learns that in Haywood wheat crops are light, oats rusty, corn

prouting and tobacco very good, there

being very large increase in acreage. Hay

is better and increased in quantity. Apple

crop short. Health of community very

good.

**THE MOORE INDEX.**—The Moore Index says that work in Randolph on the Cape Fear & Yadkin Valley Railroad is "being pushed rapidly to a completion." The stockade that we visited is near Liberty, twenty miles below Greensboro and about thirty above the Gulf.

**THE HANOVER COUNTY JOURNAL.**—The hands are working in the direction of the latter named place and

they will meet another division working in the direction of Greensboro. Above Liberty

there is a distance of about eight miles, in

the direction of Greensboro, to be graded and that will be completed, so far as we know.

The line of the road passes

through some fine farming sections on the

waters of Sandy Creek and Stinking

Quarters, and the people of those sections

are in high hopes that the track will be

aid in the near future, thus furnishing

them a market for the large amounts of

produce which has been hauled a great

distance for a long time, greatly detract-  
ing from the clear profits of their labors."

## What North Carolinians are Doing.

### GLEANINGS FROM STATE EXCHANGES.

The Enfield Sentinel says that crops in  
that section were never better. Corn and

tobacco are both prospering.

The Index says that the wheat crop of  
Wilkes is threshing out well, and corn and

tobacco are both prospering.

The revival in the Crowell's X Roads

Baptist Church, the Welton News says,

closed last week. There were 75 baptisms.

The Economist says that Pasquotank

farmers are happy; crops nearly all laid

by; the prospect never better; business

brightening up.

The Charlotte Democrat quotes flour at

\$3 to 3.25 per sack; Wheat 1 to 1.10;

corn and meat 63 to 65; peats 65; oats 40;

butter 22 to 25; chickens 12½ to 20; eggs 10;

whisky 1.25; apple brandy 1.50.

Carrot crops are reported excellently by

the Kinston Journal, and the yield is ex-  
pected to be larger than for years.

Lemire's cotton is reported as "extra nice,"

but the Journal thinks the rains may be

making stalk instead of fruitage.

The Asheville Citizen learns that in Hay-  
wood wheat crops are light, oats rusty, corn

prouting and tobacco very good, there

being very large increase in acreage. Hay

is better and increased in quantity. Apple

crop short. Health of community very

good.

The Moore Index says that work in Ran-

dolph on the Cape Fear & Yadkin Valley

Railroad is "being pushed rapidly to a

completion." The stockade that we visited

is near Liberty, twenty miles below Green-

boro and about thirty above the Gulf.

The hands are working in the direction of

the latter named place and

they will meet another division working in

the direction of Greensboro. Above Liberty

there is a distance of about eight miles, in

the direction of Greensboro, to be graded and

that will be completed, so far as we know.

The line of the road passes

through some fine farming sections on the

waters of Sandy Creek and Stinking

Quarters, and the people of those sections

are in high hopes that the track will be

aid in the near future, thus furnishing

them a market for the large amounts of

produce which has been hauled a great

distance for a long time, greatly detract-  
ing from the clear profits of their labors."

**STATE POLITICAL ITEMS:**—

Marion county Democrats have their pri-  
maries on August 7th, and their county

Convention on August 14th.

The Senatorial Convention for the Sec-  
ond and District is to meet at Plymouth, Au-  
gust 12. The district is now represented

by James T. Respass, of Beaufort, and

Joseph T. Waldo, of Martin, Democrats.

The Wilmington Star suggests "a great

big State mass meeting, to be held at Ra-  
leigh on the 12th of October next.

Let us have a grand rally like that of

1840. In October of that year the greatest

political gathering the State ever saw

was held in the little City of Oaks."

But I am glad to believe that a change

is gradually stealing over this section, for

our people are showing a higher appreciation

of education and a few of the old

people are trying to throw off the char-  
acteristics of old Rip Van Winkle.

R. D. WALTON.

**A FAIR TRADER.**

An old darkey who had "put away"

watermelons every Summer for sixty years

stood in front of one of the grocery houses

crying a pile of that fruit. The merchant

who sat in the door noticed the wishfulness

of the African in his

BUSINESS CARDS.

GEORGE V. STRONG,  
ATTORNEY-AT-LAW,  
RALEIGH, N. C.

The next session of his LAW SCHOOL will begin the first Monday in September and end the first Monday in January next. The advantages of Raleigh, in its healthfulness, in its law libraries, in its opportunities for attending the Courts which are nearly all held in the city, in the commanding position of the Bar and others from all parts of the State, surpass those of any other locality. Terms: FIFTY DOLARS PER SESSION. Good board, including lights, fuel and lodging, can be had for \$13 per month. For further particulars address:
